Rafale multirole fighter aircraft and the Falcon business

jet program from current calendar onwards.

“Through this agreement, Aerolloy Technologies is poised to contribute significantly to the enduring success of Make in India – Make for the World. As the only India-based manufacturer of critical titanium cast parts, we are eager to leverage our capabilities to support the growing requirements of the various aircraft in Dassault

Aviation’s portfolio,” said Sachin Agarwal, chairman and managing director of PTC Industries.

Bruno Coiffier, senior executive vice president purchasing, Dassault Aviation said: “This strategic collaboration salutes the expertise of Aerolloy Technologies joining Dassault Aviation’s worldwide global supply chain for the cutting-edge Rafale and Falcon jets.” TNN
