

## **ASECOL Launches 50 MW Solar Power Plant in Chitrakoot**

ASECOL, a subsidiary of Adani Green Energy Limited (AGEL), has commissioned a 50 MW solar power plant in Chitrakoot, Uttar Pradesh. The plant has a 25-year Power Purchase Agreement (PPA) with Uttar Pradesh Power Corporation Limited (UPPCL) at Rs. 3.07/kWh.

This milestone increases AGEL's total renewable energy capacity to 3,520 MW, moving closer to its 25 GW target by 2025.

With the successful commissioning of this plant, AGEL's operational solar generation capacity exceeds 3 GW. The company's total renewable capacity stands at 15,240 MW, including 11,720 MW under development.

The facility will be managed by Adani Group's intelligent Energy Network Operation Center (ENOC), which has consistently delivered superior operational performance across AGEL's renewable portfolio in India.

AGEL's projects align with India's climate commitments and contribute to decarbonisation while generating employment and fostering sustainable development.
